- Enhanced with DHA

NATURAL WITH VITAMINS AND MINERALS

Made with Fresh Chicken

The Large Breed Puppy has unique needs. During his first two years, he's forming the skeleton and muscles that will support his large frame for the rest of his life. Exclusive[®] Chicken & Rice Large Breed Puppy Formula has a 27% protein to 14% fat ratio that encourages a normal growth rate and optimal body condition. It contains Glucosamine for joint health, plus calcium and other minerals for strong bones and teeth. DHA is a nutrient found in mother's milk for brain and vision development. Easily digestible ingredients result in small, firm stools for easy cleanup.
