

# Sherman Tegtmeier Reining Essentials 2 - Day Riding Clinic

Reining is one of the fastest growing equine sports in the world. Sherman trains reining and performance horses, and is from south eastern Nebraska. He holds many horse titles including two World Championships. He has coached many green, rookie and Non Pros riders to regional and national titles as well.

Sherman's *Reining Essentials* format is targeted to the rider interested in increasing their skill level, their horses training and their competitive edge. If you are willing to take your horse to the next level (beginning or advanced) this clinic is for you. Sherman will cover an introduction to the maneuvers, stops, spins and changing leads. Then work on the techniques to accomplish them. These techniques are the building blocks of horsemanship and will benefit you and your horse in all areas of riding. He will discuss pattern work and give everyone the opportunity to try one. Come join in the excitement of reining.

**Clinic**
